Letter of Recognition

Dear Mr. Kent and Executive Team,

On behalf of the Electricity Information Sharing and Analysis Center (E-ISAC), I want to recognize and extend our appreciation to Nebraska Public Power District for co-hosting a Vulnerability of Integrated Security Analysis (VISA) Implementation Workshop at Lincoln Electric System, the week of April 24-28.

The VISA workshop is designed to teach participants how to use the methodology to enhance the physical security of their assets. The course combines teaching, discussion and practical application to ensure that participants understand how to apply the Electricity Sector Design Basis Threat to utility sites. It serves as an effective tool to assist in conducting vulnerability assessments, and in making informed risk-based and cost-effective decisions.

NPPD's staff and team of subject matter experts from the Corporate Security Division, especially Donnie Thorson, James Vasicek, Dale Schoening, Tyler Kime, Erik Konert, Greg Jarecke, and Justine Dvorak were critical to the success and effectiveness of this workshop and the E-ISAC would like to extend our gratitude and appreciation for their participation and professionalism.

We sincerely appreciate NPPD's outreach and continued partnership with the E-ISAC, as well as your coordination with first responders and other partners such as LES and OPPD whom were critical to the success of the workshop.

Thank you again for your continued partnership with the E-ISAC and for your staff's contribution to enhancing the security of the Grid.

Sincerely,

Manny Cancel
Sr. Vice President and Chief Executive Officer
Electricity Information Sharing and Analysis Center
