NPPD Board of Directors Meeting &  
Operations Committee  
February 2026

Jon Sunneberg  
Utility Scale Alternative Energy Manager

# Agenda

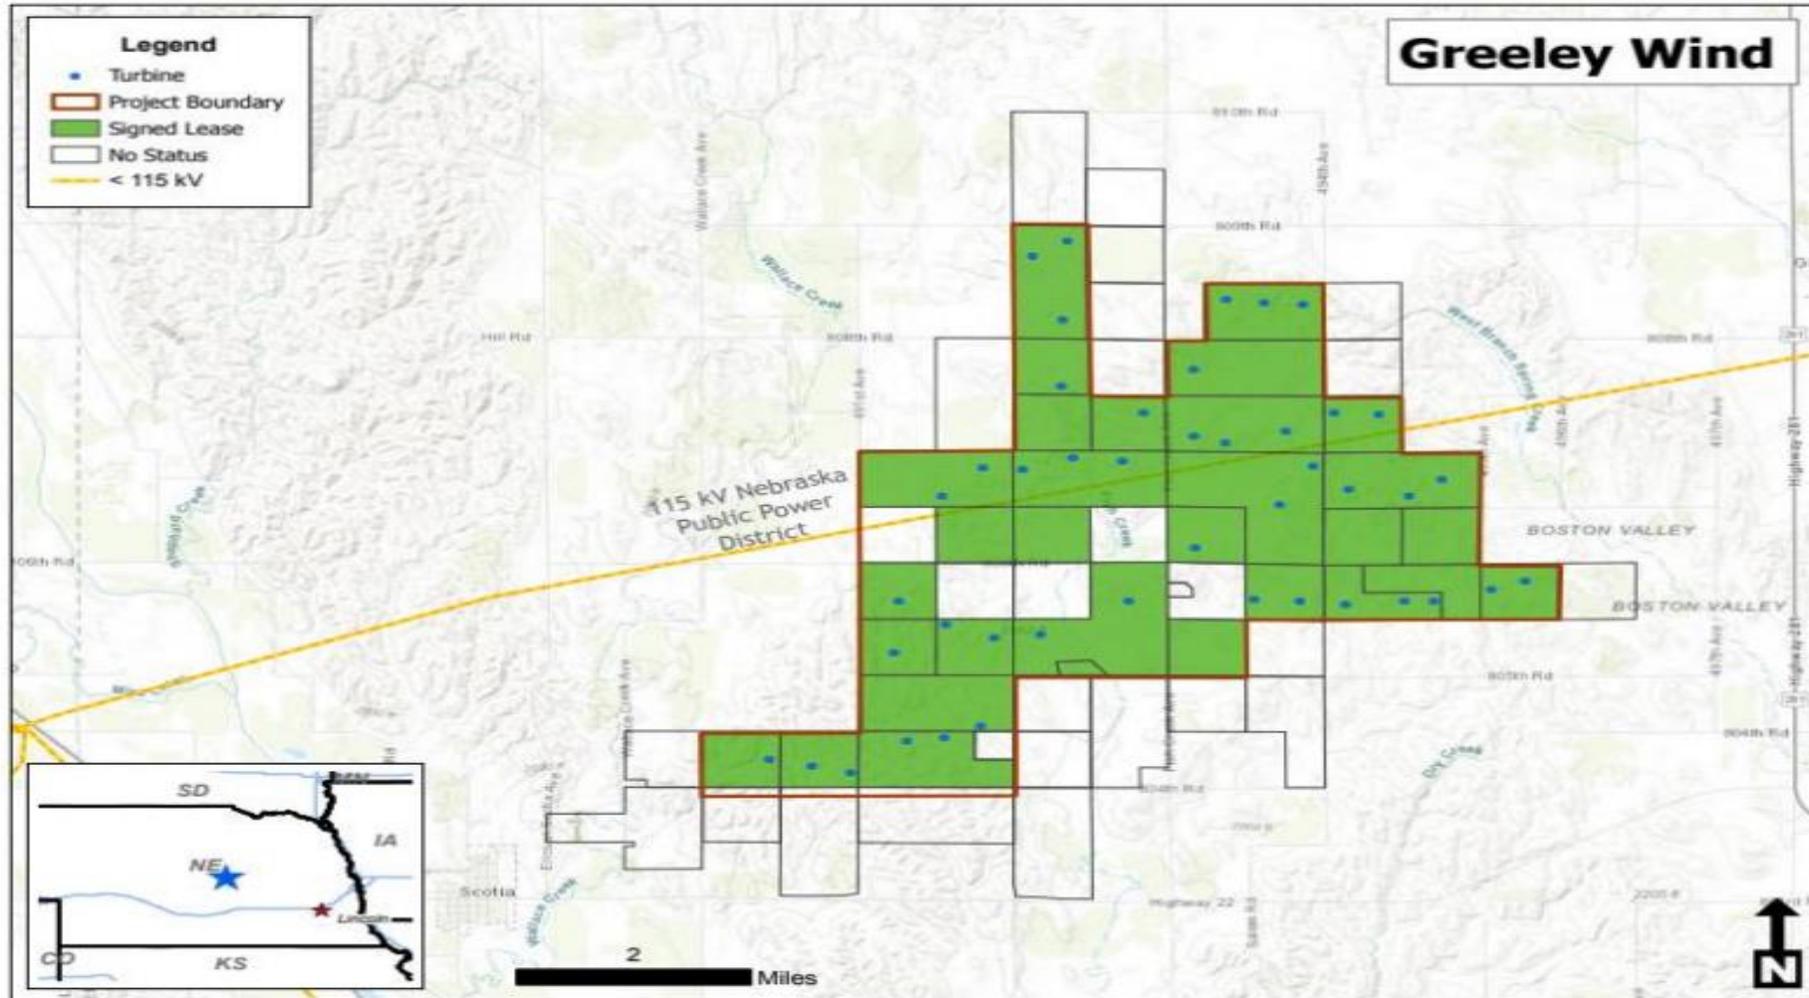

- Greeley Wind Nebraska Overview
- Burt County Solar Overview
- Recommendation

# Project Overview - Greeley Wind Nebraska

- Owned by Greeley Wind Nebraska (NextEra)
- 115 MW nameplate
- 30-year PPA
- Commercial operation date: December 2027
- 2017 SPP queue position
- Fully permitted by Greeley County
- Generator interconnection agreement already executed
- Not contingent on R-Project completion
- Potential for battery energy storage system
- MWh would be eligible for NPPD Green Energy Product auction

# Greeley Wind Nebraska Project

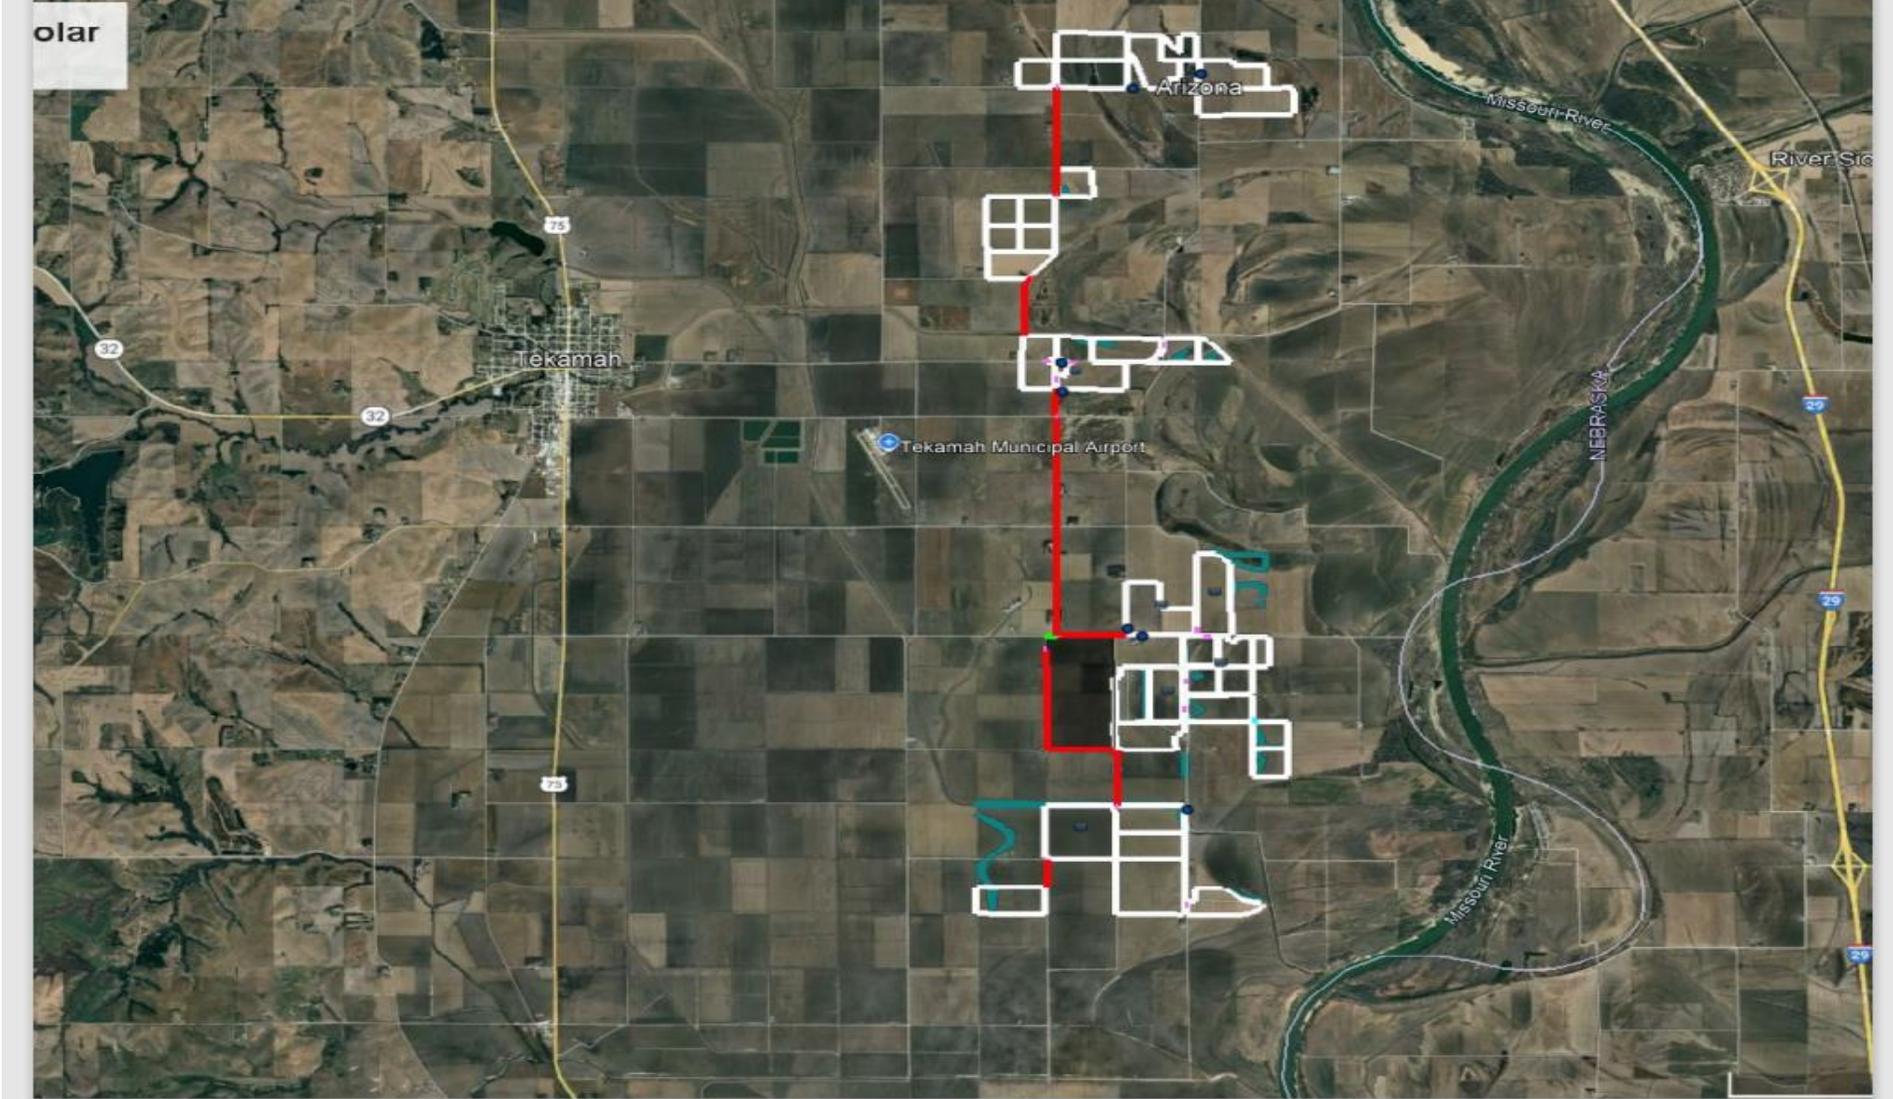

## Project Map:

# Project Overview – Burt County Solar

- Owned by Burt County Solar, LLC (Sandhills Energy)
- 350 MW nameplate
- 25-year PPA
- Commercial operation date: May 2029
- Transaction contingent on New Era Funding and permitting
  - ✓ Still working through some permitting issues with Burt County
- 2020 SPP queue position
- Generator interconnection agreement with OPPD already executed
- Not contingent on R-Project completion
- MWh would be eligible for NPPD Green Energy Product auction

# Project Overview – Burt County Solar

# Recommendation

- Adopt the two resolutions to enter into Power Purchase Agreements for Greeley Wind Nebraska and Burt County Solar projects once they are acceptable to management and legal counsel, and USDA New Era Funding approval has been secured for Burt County.
