# Loup Hydroelectric Power Purchase Contract

- Loup owns and operates a hydro system that includes Columbus and Monroe generating facilities.
- Maximum generating capacity 52.5 MW
  - Columbus 45 MW
  - Monroe 7.5 MW
- The contract includes compensation to Loup for energy and accredited capacity; NPPD also receives the environmental attributes from the hydros.
- The term of the agreement is 35 years.
- Details of contract are confidential – discussed with the Board in executive session.

# Recommendation

Adopt the resolution authorizing management to execute the Loup Hydroelectric Power Purchase Contract once the contract is in a form that is acceptable to management and legal counsel.
