

### HOUSE OR STRUCTURE MOVING TERMS AND CONDITIONS AGREEMENT

It is Nebraska Public Power District's policy to recover its actual costs involved in structure moving jobs with minimal inconvenience to its other customers and least disruption to its regularly scheduled work. Accordingly, the following Terms and Conditions apply to structure moves:

- 1) The Owner or Mover will pay NPPD a \$200.00 **"Nonrefundable"** Routing Deposit for any inquiries regarding structure moves. The \$200.00 is for the time involved in going over the route, getting measurements, and writing up the estimate. The Routing Deposit will be applied toward the final bill. The \$200.00 Routing Deposit, with the map of the route, will be collected at the closest billing office in the area the house is being moved from (Chadron, Scottsbluff, McCook, Ogallala, Kearney, York, O'Neill, Norfolk, South Sioux City, Plattsmouth, or Aurora). If the route is changed, no additional deposit required. New route will be evaluated and additional expenses will be incurred.
- 2) The routing deposit will be applied against the actual expenses to drive route, get measurements and write up estimate, if applicable. If 1) no line moves are required, 2) if the move is cancelled or 3) delayed for more than 4 months, a final invoice will be issued to the customer to finalize the amount owed. No credit will be given back to customer from Routing Deposit if expenses are less than \$200.00.
- 3) The Owner or Mover must select the route **at least 1 month prior** to the actual moving of the structure, and it must be submitted to NPPD with a map showing the route. NPPD will prepare a written Structure Moving Cost Estimate and Agreement (Form K311) and will submit to the Customer prior to the actual move. This estimate will include the agreed upon route, and will be signed by the Customer and returned to NPPD.
- 4) When moving a house or building, the roof, including the peaks, must be the highest point of the facility being moved. With all moves, it is the Owner or Mover's responsibility to remove all extremities of the structure being moved. This includes, but is not limited to, chimneys, lightning rods, wire, weather vanes, etc.
- 5) A minimum of three (3) weeks' notification to NPPD from the Owner or Mover is requested before the move actually takes place. Notification of cancellation of a move must be made no less than four (4) hours prior to the scheduled start of the move to avoid all-out charges and/or loss of Routing Deposit.
- 6) Payment of the estimated charges (from Form K311, Structure Move Estimate and Agreement to Pay Actual Costs) must be submitted to NPPD prior to the beginning of the move. This will be equal to one and one-half (1 ½) times the amount of NPPD's estimate and must be paid in the form of cash, Cashier's Check, Personal Check or Certified Check.
- 7) If during the move NPPD determines charges will be significantly more than the estimated amount due to unforeseen difficulties or changes in the planned move, the Owner or Mover will be notified and an additional amount will be required and must be paid before the completion of the move. This additional amount must also be remitted in one of the forms specified in item #6 above.
- 8) Upon completion of the move, NPPD will bill actual charges against the Customer's account with all payment amounts credited. Any credit remaining on the Customer's account after actual charges have been posted will be refunded within sixty (60) days after completion of the move.

The Authorization for modification of the terms provided herein requires approval by the T&D Distribution/Transmission Superintendent/Supervisor responsible for the energized line affected. The Owner or Mover understands and agrees the foregoing terms and conditions.
